# Confidentiality

All school personnel must have due regard to the need for confidentiality at all times.

Share information on a “need to know” basis in the interests of the child.

Does the person have any legitimate involvement or role in dealing with the issue?

Giving information to those who need to have that information, for the protection of a child **is not a breach of confidentiality.**

It is an offence to disclose information to a third party which has been shared by Tusla unless Tusla has given that person written authorisation to do so.

**Section 1.1.1, 1.1.13, 4.2.11**

# Important Information

The **Child Protection Procedures for Schools 2025** and the accompanying **Circular 0041/2025** should be the primary source of information for school personnel on matters relating to child protection.

# The Power of School Personnel

It is the responsibility of everyone in society to keep children and young people safe from harm.

Effective child protection depends on the skills, knowledge and values of personnel working with children and families.

**School personnel are particularly well-placed to observe and monitor students for signs of abuse and neglect.**  
**They are the main caregivers to students outside the family context and have regular contact with students in the school setting.**

# Definition of Child Protection

Child protection is the activity of protecting children who are  
suffering  
or may be likely to suffer  
or are at risk of suffering from harm as a result of abuse,  
including neglect, emotional abuse, physical abuse and sexual  
abuse.

# Definition of Child Safeguarding

Child safeguarding is broader than child protection and is about ensuring safe practice and appropriate responses by workers and volunteers to concerns about the safety or welfare of children, including online concerns, should these arise.

Child safeguarding is about protecting the child from harm, promoting their welfare and in doing so creating an environment which enables children and young people to grow, develop and achieve their full potential.

## Key Responsibility of all School Personnel

Everyone should be **alert** to the possibility that children with whom they are in contact may be being abused or at risk of being abused.

In any situation where a member of school personnel receives an allegation or has a suspicion that a child may have been abused or neglected, is being abused or neglected, or is at risk of abuse or neglect, they shall, without delay, report the matter to the designated liaison person (DLP).

*Children First Guidance, Chapter 1*

# What are Reasonable Grounds for Concern?

Oide

Evidence (for example, injury or behaviour) that is consistent with abuse and is unlikely to have been caused in any other way.

Any concern about possible sexual abuse.

Consistent signs that a child is suffering from emotional or physical neglect.

A child saying or indicating by other means that they have been abused.

Admission or indication by an adult or a child of an alleged abuse they committed.

An account from a person who saw the child being abused.

## Section 2.1

# Reasonable Grounds for Concern

Tusla should always be informed where a person has reasonable grounds for concern that a child may have been, is being, or is at risk of being abused or neglected.

It is not necessary for a person to have proof that abuse has occurred to report a concern to Tusla.

It is Tusla's role to assess concerns that are reported to it.

All that is required is that the person has reasonable grounds for concern.

# Four Main Types of Child Abuse

Oide

## Section 2.2

**Neglect occurs when a child does not receive adequate care or supervision, to the extent that the child is harmed physically or developmentally.**

Neglect is generally defined in terms of an omission of care, where a child's health, development or welfare is impaired by being deprived of food, clothing, warmth, hygiene, medical care, intellectual stimulation, supervision and safety. Emotional neglect may also lead to the child having difficulties of attachment. The extent of the damage to the child's health, development or welfare is influenced by a range of factors. These factors include the extent, if any, of positive influence in the child's life, as well as the age of the child and the frequency and consistency of neglect.

Neglect is associated with poverty, but not necessarily caused by it, nor is poverty necessarily a factor. It is strongly linked to parental substance misuse, domestic violence and parental mental illness and disability.

### Section 2.2.1

# Emotional Abuse

**Emotional abuse is the systematic emotional or psychological ill treatment of a child as part of the overall relationship between a caregiver and a child.**

Abuse occurs when a child's basic need for attention, affection, approval, consistency and security are not met, due to incapacity or indifference from their parent or caregiver.

## **Section 2.2.2**

# Physical Abuse

**Physical abuse is when someone deliberately hurts a child physically or put them at risk of being physically hurt.**

Physical abuse may occur as a single incident or as a pattern of incidents.

A reasonable concern exists where the child's health and/or development is, may be, or has been damaged as a result of suspected physical abuse.

## Section 2.2.3

# Sexual Abuse

**Sexual abuse occurs when a child is used by another person for his or her gratification or arousal, or for that of others.**

Sexual abuse includes the child being involved in sexual acts (masturbation, fondling, oral or penetrative sex) or exposing the child to sexual activity directly or through pornography. Child sexual abuse may cover a wide spectrum of abusive activities. It rarely involves just a single incident and in many instances occurs over a number of years. Child sexual abuse most commonly happens within the family, including older siblings and extended family members.

**Sexual abuse always reaches a threshold of harm.**

## Section 2.2.4, 4.2.4

# Types of Child Abuse

## Activity

In groups, consider and record how you would recognise each type of abuse.

### Section 2.2

The Child Protection Procedures for Schools 2025 and the accompanying Circular 0041/2025 should be the primary source of information for school personnel on matters relating to child protection.

**The content of this Professional Learning Event is not intended to replace the need to fully engage with the Child Protection Procedures for Schools 2025.**

## Session Two Outcomes

**By the end of this session, participants will have:**

explored circumstances that make children more vulnerable to abuse and neglect

gained an understanding of the roles and responsibilities of all school personnel

understood how to deal with disclosures from children

developed an awareness of record keeping requirements

understood the relevant steps to be taken when reporting a concern

considered the requirements and procedures in relation to allegations or suspicions of child abuse regarding school employees.

# Types of Child Abuse

## Feedback on Activity

Oide

How do we recognise each type of abuse?

### Section 2.2

# Recognising Neglect

Children being left alone without adequate care and supervision
Malnourishment, lacking food, unsuitable food or erratic feeding
Nonorganic failure to thrive, that is, a child not gaining weight due not only to malnutrition but also emotional deprivation
Failure to provide adequate care for the child's medical and developmental needs, including intellectual stimulation
Inadequate living conditions – unhygienic conditions, environmental issues, including lack of adequate heating and furniture
Lack of adequate clothing
Inattention to basic hygiene
Lack of protection and exposure to danger, including moral danger or lack of supervision appropriate to the child's age
Persistent failure to attend school
Abandonment or desertion

## Section 2.2.1

# Recognising Emotional Abuse

Rejection	Bullying
Lack of comfort and love	Conditional parenting in which care or affection of a child is made contingent on their behaviours or actions
Lack of attachment	Extreme overprotectiveness
Lack of proper stimulation e.g. fun and play	Inappropriate nonphysical punishment e.g. locking child in bedroom
Lack of continuity of care e.g. frequent moves, particularly unplanned	Ongoing family conflicts and family violence
Continuous lack of praise and encouragement	Seriously inappropriate expectations of a child relative to their age and stage of development
Persistent criticism, sarcasm, hostility or blaming of the child	

## Section 2.2.2

# Recognising Physical Abuse

Oide

Physical punishment
Beating, slapping, hitting or kicking
Pushing, shaking or throwing
Pinching, biting, choking or hairpulling
Use of excessive force in handling
Deliberate poisoning
Suffocation
Fabricated/induced illness
Female genital mutilation

## Section 2.2.3

# Recognising Sexual Abuse

Oide

Any sexual act intentionally performed in the presence of the child

An invitation to sexual touching or intentional touching or molesting of a child's body whether by a person or object for the purpose of sexual arousal or gratification

Masturbation in the presence of a child or the involvement of a child in an act of masturbation

Sexual intercourse with a child, whether oral, vaginal or anal

Exposing a child to inappropriate or abusive material through information and communication technology

Consensual sexual activity involving an adult and an underage person

*Sexual exploitation of a child, which includes:*

- Inviting, inducing or coercing a child to engage in prostitution or the production of child pornography;
- Inviting, coercing or inducing a child to participate in, or to observe, any sexual, indecent or obscene act;
- Showing sexually explicit material to children, which is often a feature of the 'grooming' process by perpetrators of abuse

## Section 2.2.4

# Types of Child Abuse

**Section 2.2, 2.4, 2.5**

# When Bullying Becomes a Child Protection Concern

Generally, bullying behaviour can be addressed without the involvement of Tusla. However, bullying behaviour can become a child protection concern when it results in significant physical or emotional harm, or where it becomes a persistent and severe problem and measures taken to address it are not effective.

In determining when bullying behaviour should be reported to Tusla, the following factors should be considered:

- Impact on the child
- Protective/appropriate action taken by parents/carers
- Protective/appropriate action taken by school
- Engagement of child/family with support services such as NEPS.

# Circumstances Which May Make Children More Vulnerable to Abuse and Neglect

It is important to remember that the presence of any of these factors does not necessarily mean that a child in those circumstances or settings is being abused.

## Parent or Carer Factors

- Drug and alcohol misuse.
- Addiction, including gambling.
- Mental health issues.
- Parental disability issues, including learning or intellectual disability.
- Conflictual relationships.
- Domestic violence.
- Adolescent parents.

## Child Factors

- Age.

- Mental health issues including self-harm and suicide.
- Communication difficulties.
- Trafficked/Exploited.
- Previous abuse.
- Young carer.

## Section 2.7

# Circumstances Which May Make Children More Vulnerable to Abuse and Neglect

Oide

It is important to remember that the presence of any of these factors does not necessarily mean that a child in those circumstances or settings is being abused.

## Community Factors

- Cultural, ethnic, religious or faith-based norms in the family or community which may not meet the standards of child welfare or protection required in this jurisdiction.
- Culture-specific practices, including:
  - Female genital mutilation;
  - Forced marriage;
  - Honour-based violence;
  - Radicalisation.

## Environmental Factors

- Housing issues, including where children are in temporary accommodation or in precarious housing situations.
- Children who are out of home and not living with their parents, whether temporarily or permanently.
- Poverty/begging.
- Bullying.
- Internet and social media-related concerns.

## Section 2.7

# Circumstances Which May Make Children More Vulnerable to Abuse and Neglect

Oide

It is important to remember that the presence of any of these factors does not necessarily mean that a child in those circumstances or settings is being abused.

## Poor Motivation and Poor Willingness of Parents/Guardians to Engage

- Non-attendance at appointments.
- Lack of insight or understanding of how the child is being affected.
- Lack of understanding about what needs to happen to bring about change.
- Avoidance of contact and reluctance to work with services.
- Inability or unwillingness to comply with agreed plans.

These factors should be considered as part of being alert to the possibility that a child may be at risk of suffering abuse and in bringing reasonable concerns to the attention of Tusla.

# Role of the DLP and the DDLP

## The DLP:

is normally the principal

acts as a key resource person to any member of school personnel with a child protection concern

ensures that the reporting requirements are followed correctly and promptly

ensures appropriate records are properly maintained

provides, as a standalone item, a Child Protection Oversight Report at BOM meetings

ensures child protection issues are identified and reported as early as possible.

## The DDLP:

assumes the responsibilities of the DLP in the absence of the DLP. They support the work of the DLP

## *Section 12.1*

# Important to Note

It is not the case that an allegation can be received by either the DLP or DDLP.

If both the DLP and the DDLP are onsite, it is always the DLP who receives the report.

(Nohilly & Treacy, 2024)

# Dealing with Disclosures from Children

Oide

It is important that all members of school personnel are aware and prepared for responding to a child who may disclose abuse.

- Stay calm and listen without interrupting
- Take the disclosure seriously and reassure the child
- Let the child speak freely, at their own pace
- Don't promise secrecy or show judgment
- Ask only supportive, non-leading questions
- Confirm understanding and explain what happens next
- Keep information confidential
- Record details promptly, using the child's words; don't ask them to write it
- Report to the Designated Liaison Person (DLP)

## Section 2.9

# Dealing with Disclosures from Children

## Ongoing Support

Oide

Disclosure is a huge step for a child. It is important to ensure that the child feels safe, and that any actions necessary for that safety are taken.

Following a disclosure by a child, school personnel should continue to offer support, particularly by:

- Maintaining a positive relationship with the child.
- Keeping lines of communication open by listening carefully to the child.

**It must always be remembered that school personnel have a supportive, not an investigative role.**

Any further disclosure should be treated as a first disclosure and responded to as a first disclosure.

### **Section 2.9**

# Withholding/Sharing of Information

Under the, **Criminal Justice (Withholding of Information on Offences against Children and Vulnerable Persons) Act 2012** it is a criminal offence to withhold information about a serious offence, including a sexual offence, committed against a person under 18 years of age or a vulnerable person.

The **Data Protection Acts 1988 to 2018**, and **General Data Protection Regulation (GDPR)** do not prevent the sharing of information on a reasonable and proportionate basis for the purposes of child protection.

**Section 16(3) of the Children First Act 2015** provides that a mandated person, including a registered teacher who shares information with Tusla pursuant to a mandated assistance request made by Tusla in accordance with section 16 of the Act is protected from civil liability in relation to the sharing of that information with Tusla.

## Written Record

Make a written record of the conversation as soon as possible, in as much detail as possible, preferably quoting words actually used.

**It is important to note that there is no need to anonymise this record at this point.**

Signs of physical injury should be described in detail and, if appropriate, sketched. Photographs should not be taken.

While a child should be allowed to make a written statement if they wish to do so, it is important to note that the child should not be asked to write the account of their disclosure for the record.

Factcheck the written record with the child, where possible.

Sign and date the written record and give to the DLP.

# Reporting of Concerns

Oide

If you had a concern that a child was at risk, what would you do?

# Reporting of Concerns

## What if the concern relates to the DLP?

Report the matter to Chairperson of the board of management or the Chief Executive Officer of the ETB.

Chairperson or CEO shall assume the role of the DLP and follow the relevant procedures.

**The DDLP shall support the chairperson or CEO in their role as DLP in such a case.**

**Section 5.1.9, 4.3.5**

# Reporting of Concerns

## What can I expect when I report a concern?

Concern raised by  
school personnel

The DLP should:

- inform you that advice is being sought from Tusla.
- inform you of the advice when received.
- keep a record of this fact.

If DLP decides not to  
report to Tusla

The DLP should:

- give a clear, written statement as to the reasons why action is not being taken.
- keep a record of this statement.

**If you are still concerned, you are free to consult with or report to Tusla yourself.**

The Tusla report form can be downloaded from [www.tusla.ie](http://www.tusla.ie)

If you make a report to Tusla, a copy of the report must be provided to the DLP.

# Reporting of Concerns

## Informing Parents/Not Informing Parents

### Informing parents/carers

The DLP, rather than the member of school personnel concerned, has responsibility for informing the parent/carer of a child protection concern/report.

### Not informing a parent/carer that a report is being made to Tusla

It is not necessary to inform a parent/carer that a report is being made:

- If by doing so, the child will be placed at further risk; or
- In cases where the family's knowledge of the report could impair Tusla's ability to carry out a risk assessment; or
- If the reporter is of the reasonable opinion that by doing so it may place the reporter at risk of harm from the family.

# Statutory Responsibilities of Mandated Persons

There are two main statutory responsibilities of a mandated person:

a) To report any knowledge, belief or reasonable grounds to suspect that a child has been harmed, is being harmed or is at risk of being harmed to Tusla.

b) To assist Tusla in assessing a concern which has been the subject of a mandated report, if requested by Tusla.

## Section 4.2.1

# Mandated Assisting

Tusla may request a mandated person to provide any necessary and proportionate information and assistance to aid Tusla in assessing the risk to a child arising from a mandated report.

A mandated person must comply with this request, regardless of who made the mandated report.

Mandated assistance may include a request to supply further information over the phone, produce a verbal or written report or attend a meeting.

## Regarding School Employees

### Procedures to Be Followed

Oide

There are two sets of procedures to be followed where there is an allegation against a school employee:

- The reporting of the child protection concern to Tusla
- The procedure for dealing with the employment matters.

Where there is an allegation against a member of school personnel, it is recommended that the same person would not have responsibility for dealing with the reporting issue and the employment issue.

The DLP is responsible for reporting the matter to Tusla.

The employer is responsible for addressing the employment issues

## Activity

Child safeguarding is about protecting the child from harm, promoting their welfare and in doing so creating an environment which enables children and young people to grow, develop and achieve their full potential.

What safeguarding practices are happening in your school under each of the four key areas of wellbeing?
