DEIS & JCSP

Welcome to our April newsletter from the Oide DEIS & JCSP team!

As the term draws to a close and the excitement of the Easter celebrations approaches, we are thrilled to invite you to dive into the vibrant educational world of DEIS & JCSP!

This term has been packed with action, and we're delighted to share some highlights:

- The launch of our DEIS Teaching and Learning full-day Professional Learning Experience (PLE), aimed at enhancing our teaching practices and supporting student success.
- Beneficial resources designed to empower both educators and students, helping everyone thrive in the classroom.
- In-school support initiatives to further enrich the learning experience for all involved.
- The biannual JCSP competitions, where students will showcase their talents and skills in a fun and competitive environment.
- The culmination of our annual Make a Book exhibitions, an event that celebrates creativity and collaboration among our students.

DEIS Professional Learning Events

Teaching, Learning and Assessment to Support DEIS Action Planning PLE

This new informative PLE has now commenced. It offers classroom teachers a valuable opportunity to explore a student centred approach in reviewing the eight DEIS themes and the six-step SSE Process.

Participant feedback has been very positive to date, especially in relation to the sharing of practice on the practicalities of implementing DEIS in the classroom.

Click here for the informative flyer, please click here for video showcasing some of the day. To avail of these ongoing PLE's, click here and search for DEIS Teaching.

Junior Certificate School Programme

2025 Oide JCSP MAKE A BOOK EXHIBITION

Junior Certificate School Programme

The 2025 annual MAKE A BOOK exhibition was a remarkable success! The fact that it spanned across the four provinces and featured innovative projects from students in both rural and urban areas shows a great level of inclusivity and diversity. It's also fantastic that the exhibition built upon last year's success, offering a wide range of creative projects - from practical topics such as: "Pet Care" and "Healthy Food" to more complex games like "Dungeons and Dragons."

A snapshot of the projects and participants' reactions can be viewed below
