What is the Purpose of Education?

CURRICULUM PURPOSE

Consider the following statements taken from various second-level curricula...

Senior Cycle Redevelopment

- Educates the whole person
- Challenges students to aim for the highest level of educational achievement
- Supports students to make informed choices as they choose different pathways
- Deepens students' understanding of human rights, social justice, equity, diversity and sustainability
- Enables students to experience the joy of reaching significant milestones in their educational journey

...Transition Year Programme Statement, 2024, p. 3

Junior Cycle

- Allows students to make a greater connection with learning
- Offers experiences that are engaging, enjoyable and relevant to their lives
- Develops students' abilities in the areas of creativity, innovation and enterprise
- Builds on students' learning to date and enables them to develop the learning skills that will assist them in meeting the challenges of life beyond school

...Junior Cycle Music Specification, 2018, p. 3

Leaving Certificate Established

- Develops all aspects of the individual, including aesthetic, creative, critical, cultural, emotional, expressive, intellectual, moral, physical, political, social and spiritual development, for personal and home life, for working life, for living in the community and for leisure.
- Provides continuity and progression from the Junior Certificate Programme, with an appropriate balance between personal and social development, and preparation for further education and for adult and working life.

...Leaving Certificate Music, 1996, p. 2

Transition Year

- The development and learning of students moving from junior cycle into senior cycle, and as they prepare for their future lives as local, national and global citizens

...TY Programme Statement, 2024, p. 7

Leaving Certificate Applied

- Prepares students for transition from the world of school to that of adult and working life.
- Sets out to recognise the talents of all students and to provide opportunities for developing personal responsibility, self-esteem and self-knowledge, and helps students apply what they learn to the real world.

...curriculumonline.ie/senior-cycle/lca/

Activity: What common messages can you find threaded across these curricula?

What common messages
can you find threaded
across these curricula?

*‘A clear statement of aims in curriculum policy is only the starting point. It should be accompanied by systematic sense-making by teachers. **Clarity of purpose** is a necessary prerequisite for constructive and purposeful curriculum making.*

It requires teachers to be more than simple implementers of policy, but instead, professionals who interpret, translate, mediate and enact policy through the exercise of professional judgment.’

Practice

Pedagogical Content Knowledge (PCK)

Oide

The importance of teachers having an integrated understanding of the content knowledge (CK) they are teaching and the most effective ways to teach that knowledge (PK) to their students

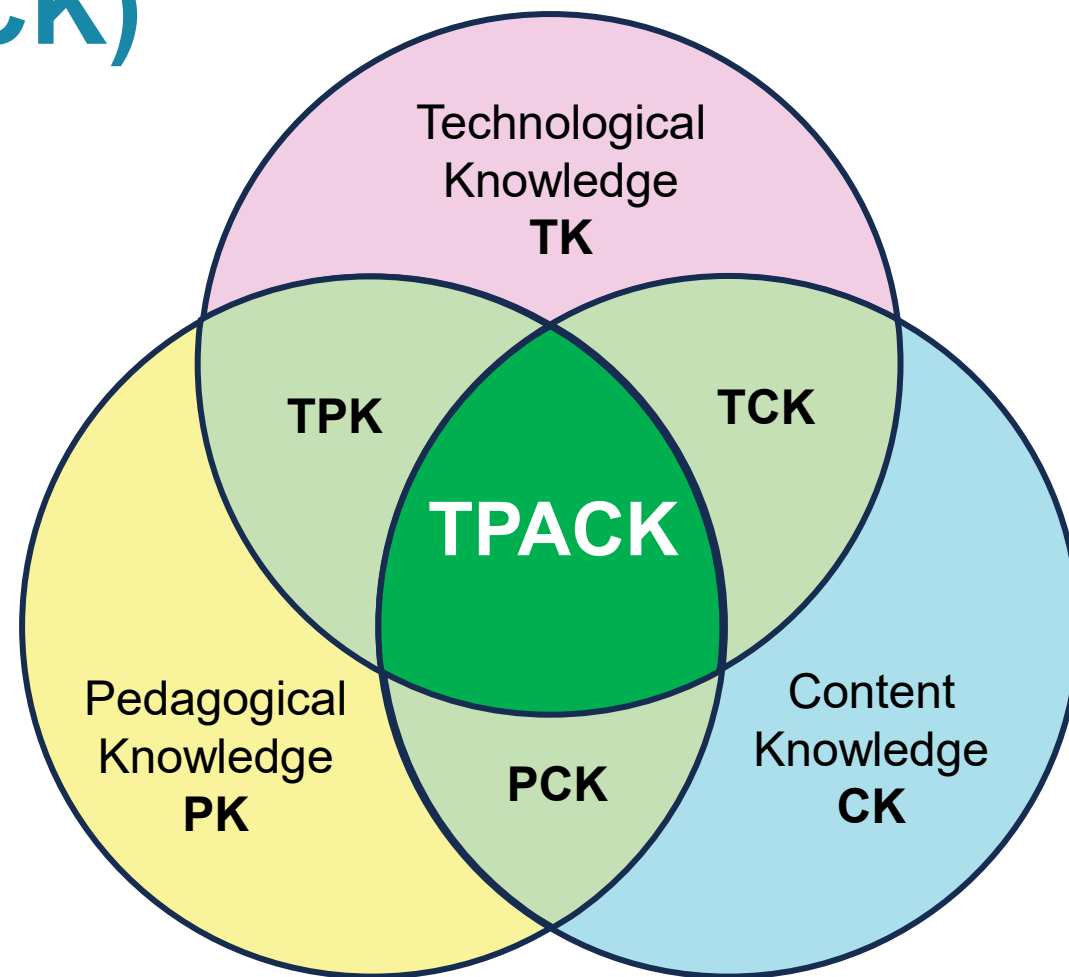

Technological, Pedagogical and Content Knowledge (TPACK)

An Integrated Understanding

Technological knowledge (TK)

Knowledge and ability to effectively use a variety of technologies to support teaching, learning and assessment

Looking at Our School 2022

Oide

Teachers' collective / collaborative practice	Teachers:
	work together to devise learning opportunities for students across the curriculum

Teachers' individual practice	Teachers:
	Integrate relevant literacy and numeracy skills into the lesson

Learner experiences	Students:
	engage purposefully in meaningful learning activities

Key Skills and Competencies

Oide

Key Skills in Leaving Cert

These Key Skills and Competencies that bind curriculum, pedagogy and assessment have particular relevance for the ways in which learning experiences are designed.

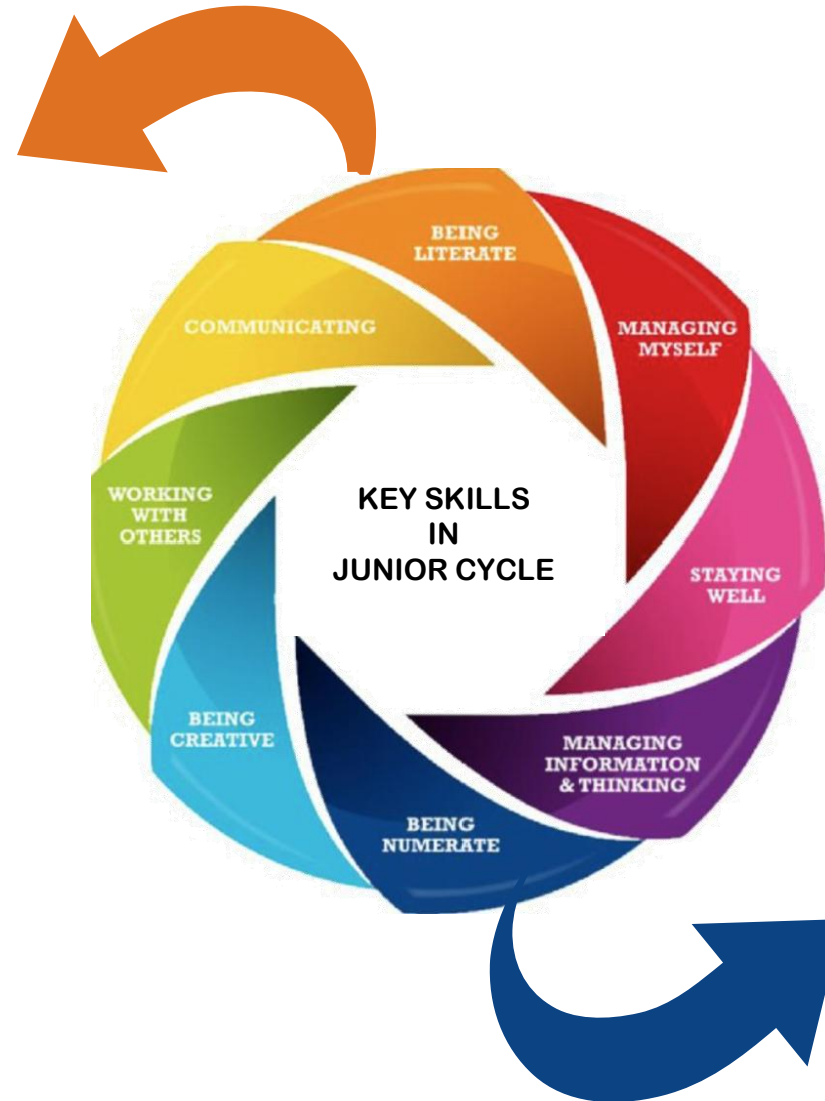

Literacies and Numeracy – Junior Cycle

Oide

Being Literate

- Developing my understanding and enjoyment of words and language
- Reading for enjoyment and with critical understanding
- Writing for different purposes
- Expressing ideas clearly and accurately
- Developing my spoken language
- Exploring and creating a variety of texts, including multi-modal texts.

Being Numerate

- Expressing ideas mathematically
- Estimating, predicting and calculating
- Developing a positive disposition towards investigating, reasoning and problem-solving
- Seeing patterns, trends and relationships
- Gathering, interpreting and representing data
- Using digital technology to develop numeracy skills and understanding.

Senior Cycle Key Competencies

Oide

Each competency has an introductory description, followed by the over-arching learning outcomes and the associated attributes.

The attributes help to make the competency clearer by setting out how the student will develop and apply the learning.

Literacies and Numeracy

Oide

The relationship between key competencies, literacies and numeracy is a two-way, reciprocal one.

The development of literacies and numeracy supports the development of competencies and vice-versa.

Ireland's Literacies and Numeracy

Oide

Consider the statement for your group and answer the following question...

Group 1: Identify the different types of Music literacy you engage your music students in.

Group 2: What numeracy opportunities do you encounter in your Music teaching?

Group 3: Where can you find opportunities to embed digital literacy when teaching Music?

Literacy

...the capacity to use, read, understand, reflect on, evaluate, engage, create and critically appreciate various forms of communication including eye gaze, gesture, babbling, spoken language, printed text, visual texts, broadcast media, and digital media to achieve one's goals, to develop one's knowledge and potential, and to participate in society.

Numeracy

...the ability to observe, explore and manipulate objects, and hear mathematical language. It involves using mathematical understanding and skills in a variety of contexts to describe, predict and explain phenomena, recognising the role that mathematics plays in the world. A numerate learner applies mathematical skills and makes the well-founded judgements and decisions needed by constructive, engaged, and reflective members of society.

Digital Literacy

...the ability to access, explore, manage, understand, integrate, communicate, evaluate, create, and disseminate information safely and appropriately through digital technologies. It includes critical thinking, using ICT safely, responsibly and ethically, collaboration and creativity, finding real information, and respectful online communication.

Learning Experiences in Practice

Gaelic Folk Opera

Oide

John Spillane

Shared with the
kind permission
©John Spillane

- A three-act Gaelic folk opera composed by Irish artist John Spillane.
- An imagined re-Gaelicization of the Victorian Cork fairytale Fíor-usga collected by Thomas Crofton Croker in the 1800's and published in his book Fairy Legends and Traditions of the South of Ireland (1828).
- A surreal tale culminating in a drowned kingdom, which as lore tells us, becomes *The Lough* in Cork city as we know it today. They say you can see the tops of the underworld towers on a clear day and hear the music of their big party on Midsummer's night.

Illustration by Megan Clancy Creative

Aon Láthair begins with the mythical King Corc asking his subjects if they can tell him any flaws he has as a king. The chorus responds, of course, that he has no flaws and that he is the greatest king under the sun.

How is the mythical character of King Corc represented in the music?

King Corc

The Chorus

5

1.

9

2.

The image displays a musical score for the song 'King Corc'. It consists of three staves of music in treble clef, with a key signature of two sharps (F# and C#) and a 6/8 time signature. The first staff is labeled 'King Corc' and the second staff is labeled 'The Chorus'. The score includes a repeat sign at the beginning of the first staff, a first ending bracket labeled '1.' at the end of the second staff, and a second ending bracket labeled '2.' at the beginning of the third staff. The music features a mix of eighth and sixteenth notes, with some rests and a final cadence at the end of the third staff.

Fíoruisce by ©John Spillane

Useful Links

[Fíoruisce - A Gaelic Folk Opera by John Spillane](#)
[Seoladh/Launch of Fíoruisce](#)
[Réamhcheol/Overture from Fíoruisce](#)
[Review of Fíoruisce from the Journal of Music](#)
[Irish Memory Orchestra - Bill Mag Fhloinn Celtic Horns](#)

[Listen](#) to the first 45 seconds of *Aon Láthair* and consider the following suggestions...

- Draw a curve to represent the shape of the melody. Compose a variation on the melody using the B minor pentatonic scale that follows the same shape.
- The first line is sung by King Corc (An Rí) and the answering second line sung by the Chorus (An Chosmhuintir). In a group, decide who is the king and who is the chorus, and sing or play the first two lines.
- Create a drone in a group by singing/playing long repeated B and F# notes. Half the group might sing/play B and half might sing/play F#. Perform the drone along with the original recording or while another performer improvises on a B minor pentatonic scale.
- Some of the drones in this folk opera are performed on the *adharc* or bronze-age Irish trumpet. Research this instrument online. What does it sound like? What does it look like? When were these instruments originally played?
- This section of *Aon Láthair* mainly uses the notes of the B minor pentatonic scale. Circle the notes that do not belong to this scale.
- This song uses some ornamentation in the melody. Listen to the recording and put your hand up when you hear an example of ornamentation.
- Describe some of the found sounds/objects you hear in this recording. What effect do they have on the music?
- The folk opera *Fíoruisce* is described as macaronic. Research what this word means. Listen to the rest of this song or other songs from the album and find examples of where it is macaronic.
- The story of this folk opera is based on a local legend in the composer's hometown. Research local myths or legends from your area. Choose a character or story and think about ways in which some element of the character or story could be expressed musically. Compose a song or piece inspired by the story or character.

Oide

Leaving Certificate Applied Arts Education Music Learning Outcomes

Oide

The LCA Music student will choose from: Music Module 1 and Music Module 2 OR Music Module 1 and one other module from Dance, Drama or Visual Art

Music Module 1 consists of Unit 1, Unit 2, Unit 3(a) or 3(b) and Unit 4(a) or 4(b)

Music Module 2 consists of Unit 1, Unit 2, and the Units not chosen in Module 1 from Units 3 and 4

	Unit 1 Music Types	Unit 2 World Music	Unit 3(a) Music in the Community	Unit 3(b) Music of Ireland	Unit 4(a) Music Industry	Unit 4(b) Music and the Media
LEARNING OUTCOMES	In relation to any two of the following types of music: Jazz, Classical, Religious, Pop, Rock, Music for Stage, Contemporary or any other recognised type the student will be able to: 1. demonstrate listening skills for this type of music; 2. name some of the prominent personalities involved in this type of music; 3. display a knowledge of the instruments associated with this type of music; 4. identify the main characteristics of this type of music; 5. demonstrate an awareness of this type of music in reference to its historical, social, cultural and geographical context; 6. partake in one music-making activity related to Unit 1.	In relation to one of the following: African music, Latin American music, Indian music, Spanish music, Arab music, Caribbean music, Chinese music, Greek music, Indonesian music or any other recognised world music the student will be able to: 1. demonstrate an appreciation for this type of music; 2. display a knowledge of the instruments associated with this type of music; 3. identify the distinguishing features of the chosen style of music; 4. develop an understanding of the role of the music in its cultural context; 5. partake in one music-making activity related to Unit 2.	The student will be able to: 1. describe a range of music activities at local level - concerts, choirs, festivals etc. 2. list music resources available in the locality - libraries, music shops, art centres, recording studios etc. 3. research a local musician or group or person involved in music in the community; 4. outline some changes in music at local level within a specific time-frame; 5. identify music activities which are already in existence in the school; 6. attend a local music event.	In relation to Irish Traditional Music or any other style of music with a discernible Irish influence the student will be able to: 1. identify the main characteristics of their chosen music; 2. display a knowledge of the instruments used when performing this music; 3. identify the prominent personalities associated with this style of music; 4. place the music in its historical, social, geographical and cultural context; 5. discuss reasons for the demise or the current success of this music, as appropriate; 6. partake in one music-making activity related to Unit 4.	The student will be able to: 1. outline the main structures of the music industry e.g. record companies, managers, etc. 2. evaluate the influence of marketing and advertising on the music industry; 3. identify the main processes involved in the production of a video for the music industry; 4. display a basic knowledge of the principles of recording music; 5. understand the basic principles of music property rights.	The student will be able to: 1. describe the role of music in advertising; 2. describe the role of music in film; 3. create promotional material for a music event; 4. produce a short music related radio or video documentary/interview/advertisement/presentation; 5. research the time given to music on one national radio station or one local radio station; 6. discuss the role of reviews, reviewers and critics.
TEACHER GUIDELINES	► Explore chosen pieces under the following headings: Rhythm - regular versus irregular, pulsating, repetitive or choppy. Are there even or uneven patterns? Does it stress the on-beat or the off-beat? Melody - smooth and continuous or jagged and jumpy, possible to sing or difficult to reproduce. The piece may be based on a single melody, a number of different melodies throughout or perhaps several melodies happening at the same time. Melody may not even be important in this type of music. The composer/performer may well be trying to achieve something very different as a means of expression. Instruments and Orchestration What are the instruments used and how are they used? Solo, large groups, electronic, a mixture. Speed and Dynamics Mood and Impression conveyed	► See Music Types ► Have a visiting percussion workshop to demonstrate the instruments and rhythms of a particular music. ► Have an instrument-making workshop linked to art or woodwork activities. ► In many cultures musical instruments are still very accessible. Consider the possible role of marketing and advertising on the rising use of music-making e.g. brand names etc. ► Have discussed the characteristics of a particular music incorporate the use of dance as a means of exploring that music within its cultural context. ► This unit affords many opportunities for linking with other courses, e.g. Social Education (Contemporary Issues modules), Rural Catering to Tourism (Catering for Diversity module). Students could integrate their learning about their chosen music with their learning about social issues, customs, the food and culture of that country, through an event, meal, presentation or display.	► Use local newspapers, local radio, films or the information page on internet to build up a picture of music at local level. Perhaps do a comparative study through your local newspaper of the music events in the locality during a previous time-frame. Compare rural with urban. ► Encourage a visit to the local library or Arts Centre. Invite a local Music Promoter or Arts Officer to visit the class and discuss music at local level. ► Interview older members of the community about the music trends of their youth. Invite a number of people of different ages to select and give reasons for the choice of their favourite music. Invite these people to visit your school and hold a classroom lesson to discuss. This can help break down barriers between old and young as well as encouraging an openness to different types of music. ► Attend a local music event. Talk to the musicians after the performance. In an effort to promote attendance and encourage audience development tickets may well be made available at the door. If a representative of the school makes a call in advance.	► See Music Types Of the listening examples chosen consider the following: How 'traditional' are they? Do they incorporate other styles? How? Discuss the success both at home and abroad of this music. Look at the profile of the performer, listeners and audiences. Listen to examples of crossover styles of music. Invite a local musician to visit the school and consider the similarities or the difference between this music and the listening examples. Have a bodhran workshop visit the school. Discuss other ways that percussion can be incorporated into music of Ireland.	► Examine the direction taken by any group from their founding to their present status e.g. their dealings with managers, record companies, recordings, contracts, marketing and advertising etc. ► Make contact with a recording studio and examine their promotional material and the services provided. Visit a recording studio or have a sound engineering/ music technology workshop visit your school. ► Discuss the wages involved in the production of any CD/Videos. ► Consider the percentage of profit share e.g. manager, promoter etc. ► Look at what is involved in the touring of any group: the costs, the people involved in setting it up, the crew on the road, the advertising as well as the insurance and rental of venues.	► Pick a number of advertisements or films and discuss the music used under the following headings: • Mood • Target audience • How the music is linked to the product • Production cost of the advertisement • How important is the music ► Replace the existing music with a different piece. ► Allow students to pick a number of their favourite pieces and create an advert around them. ► Technical aspect of using the music - timing, mixing etc. ► Create a promotional package for any music event - posters, flyers, press release, advert for local paper. ► Collect and discuss reviews from national and local newspapers. ► Compile a WHAT'S ON guide for music events in your area. ► Interview a musician, singer, manager, promoter or music technician. ► Review a gig, concert, show, performance or musical. ► Select music for a radio/television show.

Music Module Descriptor for Leaving Cert Applied Music can be downloaded from www.curriculumonline.ie pp. 12-17

Unit 3(b) Music of Ireland

4. Place the music in its historical, social, geographical and cultural context

3. Identify the prominent personalities associated with this style of music

Unit 3(a) Music in the Community

3. Research a local musician or group or person involved in music in the community

1. Describe a range of music activities at local level - concerts, choirs, festivals etc.

RHYME IN SONG

Sláinte by IMLÉ

...is the repetition of similar sounds. In rap, song lyrics and poetry, rhyme can be used to emphasise certain words, enhance meaning and create a musical effect.

END RHYME occurs when words at the end of a line rhyme

Example
The dog walked down the street
He was dancing to the beat

INTERNAL RHYME occurs within a line

Example
The flowers sway in bright array,

Sláinte, saol fhada a mhac,
Tóg go réidh é man in sa domhain is ná bac
say sláinte, saol fhada a mhac,
Tá muid saor anseo yea amach agus amach

I got, fadhbanna ceann eile sa slua

Oide

Pedal Chord Ostinato

A bright fanfare with an exciting rhythm that begins the piece and repeats almost all the way through.

A clear major tonic triad when we first hear it, but later in the piece more notes are added creating a dominant chord sound.

At first it sounds like it begins with a quaver upbeat, but throughout the piece can be heard in different ways as it is layered and combined with other musical ideas.

Read this description.
Can you hear it?

Creative Teaching

See What You Hear, Hear What You See

Oide

Pedal Chord Ostinato

How would you describe
the sound of this notation
in words?

Literacy and Creativity

Oide

Imagine what your musical idea sounds like...

Pedal Chord Ostinato

A bright fanfare with an exciting rhythm that begins the piece and repeats almost all the way through.

An A major tonic chord when we first hear it, but later in the piece more notes are added.

At first it sounds like it begins with a quaver upbeat, but throughout the piece can be heard in different ways as it is layered and combined with other musical ideas.

Chromatic Melody

An exciting rising melodic idea moving in semitones with a driving rhythm.

2 variations of the same phrase that are different lengths and move through the chromatic scale in slightly different patterns.

When it reaches its climax it jumps back down an octave and starts to step up the staircase-like melody creating more and more excitement in the music.

Synthesizer Wobble Bassline

This sound is surprising when it first enters on the bass synthesizer.

This type of sound is sometimes called a wobble bass and is often heard in electronic dance music such as drum and bass, dubstep, and jungle. This electronic synthesizer bassline contrasts with the brass-style timbres of the other parts.

This melodic idea is in a different time signature (4/4) which brings about a change in the pulse affecting the overall metre and uses a variety of rhythms throughout.

Backbeat

An epic backbeat confirms the 4/4 time and emphasises the new pulse.

This common rock pattern keeps a steady beat while the other parts of different lengths, tempos and rhythms whirl around it.

Bass Melody

A loud and powerful melody in the low bass range that creates an ominous, foreboding feeling.

This melody uses long sustained notes.

The melody leaps between notes of the A chromatic scale sometimes suggesting a major tonality and sometimes a minor one.

Individual Group Activity

Together in your individual group,
create and draw an image to represent the idea
devise a movement for the musical idea

Guidance on Artificial Intelligence in Schools

Oide

Department of Education and Youth

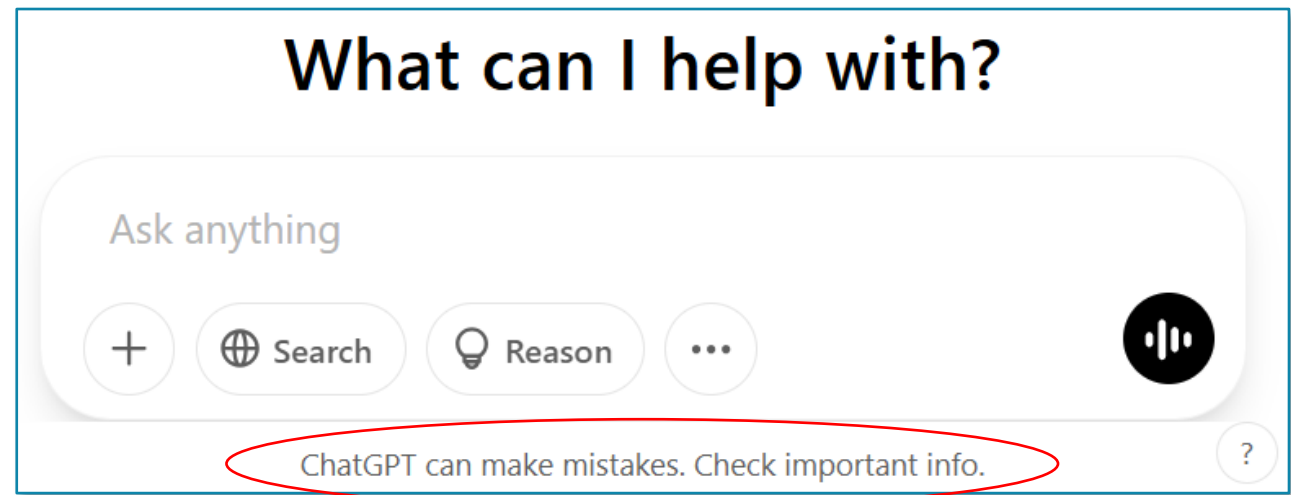

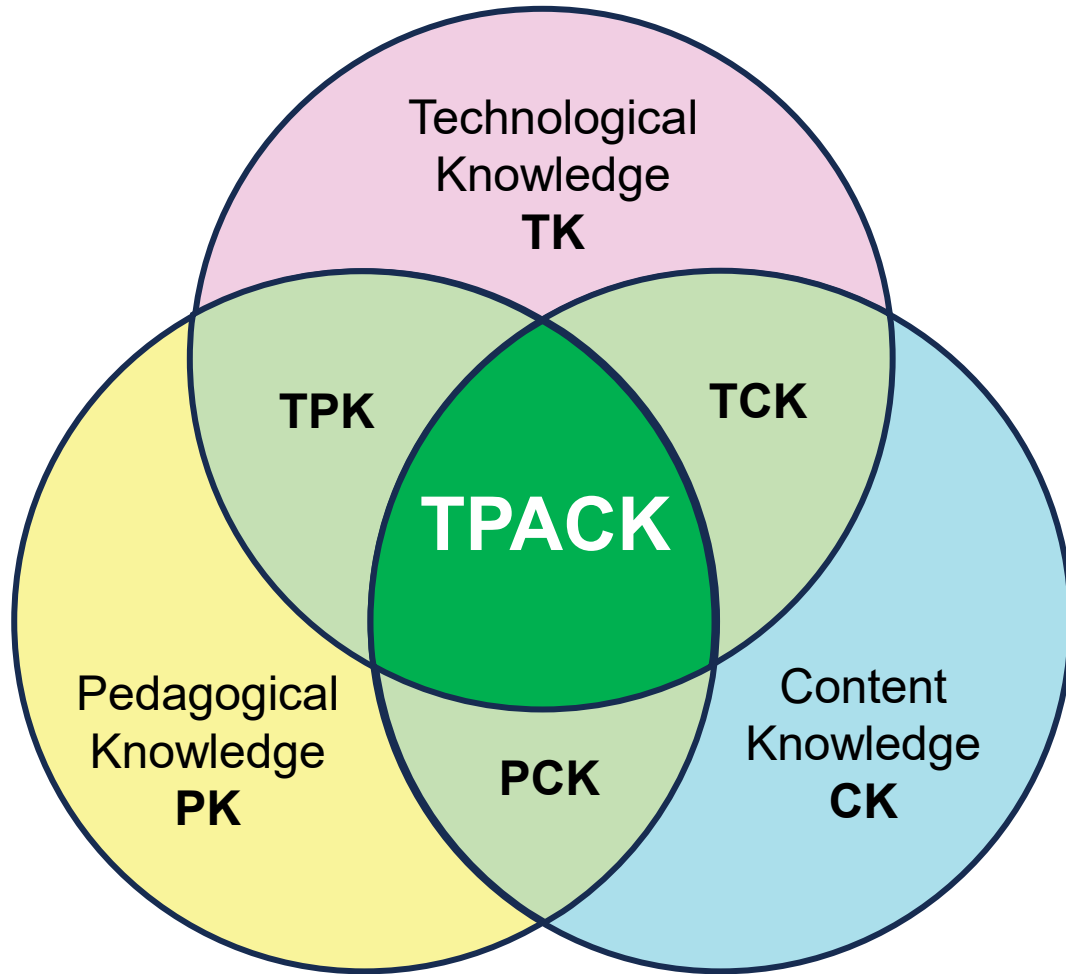

Newly Published
21st October 2025

The Importance of TPACK and AI

Oide

What do you believe
AI cannot and should
not replace?

1. Human-centred mindset
2. Ethics of AI
3. AI foundations and applications
4. AI pedagogy
5. AI for professional development

Digital Strategy for Schools to 2027

Oide

Recognise strengths and limitations of AI and address the ethical considerations and risks.

AI based educational tools may bring benefits such as the ability to provide customised learning and personalised feedback.

Generative AI and Education

Oide

On the efficiency side, for administrative work, AI assistants and agents have a lot to offer.

Software systems used at educational institutions include integrated AI assistants that can be used to streamline workflow and boost productivity.

Digital Age of Consent

Oide

The Digital Age of Consent in Ireland is 16 years old.

This is the age at which children can legally consent to companies/organisations processing their personal data or information.

For children under the age of 16, consent must be given by the parent or guardian of the child.

What is Artificial Intelligence?

How does it work?

What is Artificial Intelligence?

Oide

The simulation of human intelligence in machines that are programmed to perform tasks that normally require human intelligence, such as learning, decision-making, and problem-solving.

What is Generative AI?

Oide

*GenAI enables users to quickly **generate new content** based on a variety of inputs. Inputs and outputs to these models can include text, images, sounds, animation, 3D models, or other types of data.*

GenAI models use neural networks to identify the patterns and structures within existing data to generate new and original content.

is trained on all...**

Example of Text Generation

Suggest 3 important songs or
pieces of music to help me
learn about Blues

Here are three essential pieces of music that provide a solid foundation for understanding the Blues:

1. "Cross Road Blues" by Robert Johnson (1936)

- Robert Johnson is one of the most iconic Delta Blues musicians. This song showcases his raw vocal style, intricate guitar technique, and storytelling, which are all hallmarks of early Blues music. It's a cornerstone for understanding the roots of the genre.

2. "Hoochie Coochie Man" by Muddy Waters (1954)

- Muddy Waters represents the Chicago Blues sound, where electric instruments and a fuller band arrangement came into play. This song highlights the transition from acoustic Delta Blues to electric Blues and the influence it had on rock music.

3. "The Thrill Is Gone" by B.B. King (1969)

- B.B. King brought a sophisticated, soulful edge to the Blues. His smooth vocals and expressive guitar solos on his beloved "Lucille" helped bridge traditional Blues with more modern interpretations. This song exemplifies his emotional delivery and the influence of Blues on other genres like soul and jazz.

Each of these pieces introduces different aspects of Blues: its roots, evolution, and impact on modern music. Would you like me to delve deeper into any of them or suggest more?

GenAI in Practice

Oide

Example of Image Generation

Create a photorealistic image of a group of teenagers performing on ukuleles at a school concert

GenAI in Practice

Example of Video Generation

Create a video to represent the images in Vivaldi's Spring: birds singing...murmuring streams...breezes...thunderstorms...flower-strewn meadows...leafy branches...a goat-herd and his dog

Oide

 Bing Video Creator

Example of Sound Generation

A song about waiting for winter in Ireland to be over and looking forward to summer in an indie folk style

What is a LLM?

Oide

A large language model (LLM) is an AI model trained on large amounts of text to understand language and generate humanlike text.

Considerations when Interacting with AI

A large blue circle with a white border, containing the text 'Critical Thinking' in white.

Critical
Thinking

Critical thinking is a fundamental skill that students need to meaningfully engage with AI as learners, users and creators

Critical
Thinking

...higher confidence in GenAI is associated with less critical thinking, while higher self-confidence is associated with more critical thinking...

Effective Questioning when using AI Prompt Engineering

Prompt Engineering

Oide

Enhancing Interactions with AI

Prompt engineering is the process of iterating a generative AI prompt to improve its accuracy and effectiveness.

The RASE Framework in Action

Oide

Role

Act as an experienced choir director in an Irish post-primary school

Ask

Describe 3 engaging and fun vocal warm-ups for a choir of 12-14 year olds with lots of different voice types.

Specific

Include example videos or other resources. Explain clearly the vocal skills being developed.

Experiment

After providing your response, ask me some follow-up questions that would help you to provide a better response.

AI Tools in Practice

Curate your AI Tools collection

Oide

Support teachers to establish their own collection of AI tools

...to curate trustable AI relevant to their needs and local contexts.

AI Tools in Practice

Oide

Supporting Design for Learning, Teaching and Assessment

Act as an experienced post-primary music teacher working in the Irish education system.

Here are three Learning Outcomes from the Junior Cycle Music Specification.

"1.13 compare different interpretations or arrangements of a piece of Irish traditional or folk music, paying attention to musical elements and other influences

2.10 develop a set of criteria for evaluating a live or recorded performance; use these criteria to complete an in-depth review of a performance

3.11 explore the time allocated to Irish artists and performers on a variety of local or national Irish media and present these findings to your class"

Devise a series of 4 lesson plans that will support and progress students learning about the skill of comparison using different arrangements of 2 Irish folk songs. Students should learn about how to source information about the time allocated to the artists who performed these songs in national Irish media and how to develop a set of criteria for evaluating a live performance of either song.

This is for a 2nd year group of 24 student. Lessons are 55 minutes. Include strategies for inclusion and differentiation.
