Transpose Extension for Google Chrome

Note that this online tool will only work in the Google Chrome browser.

The *Transpose* extension enables the user to change the key, pitch and tempo when playing videos through the Google Chrome browser (e.g., on YouTube).

This extension also includes a looping function.

To Install the *Transpose* Extension

- Open Google Chrome browser
- Go to <https://chromewebstore.google.com/>
- Search for 'Transpose'
- Click 'Add to Chrome'

Transpose ▲ ▼ pitch ▶ speed ▶ loop

Extensions button

To Use the *Transpose* Extension

- Visit a music video on YouTube, using your Google Chrome browser
- Click the Extensions button, located in the top right corner of the browser
- Click the Transpose extension (This can be pinned to always appear if desired)
- Use the controls to change the transpose, pitch, tempo and loop points as desired
