

Subject Learning and Assessment Review (SLAR) Meetings

Establishing Ways of Working Together

What do we need to have in place to ensure we get the most out of the SLAR meeting?

‘The working environment must feel like a safe place to practice. Skilled facilitators also have a role to play in the construction of a safe learning environment. Guided discussions can help create a collegial and safe environment where sharing can take place.’

(Hipkins & Robertson, 2011)
