

Subject Learning and Assessment Review (SLAR) Meetings Running Order of Samples

During the SLAR meeting, at least two samples for each descriptor should be discussed. Each teacher should have at least one of his / her examples discussed during the meeting. Teachers will keep a note of the decisions made during the meeting for the students' work they have already assessed. After the SLAR meeting, teachers consider the provisional assessment of their students' work and where necessary make the appropriate adjustments to their provisional assessments.
