

Oide

The 'Let's Talk' framework will help support and develop pupil's thinking by promoting talk and discussion about their ideas and strategies. Teachers can move from segment to segment through the 'Let's Talk' central hub, to scaffold discussion and extend thinking. Each segment can be revisited several times.

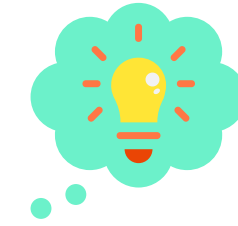

Oide

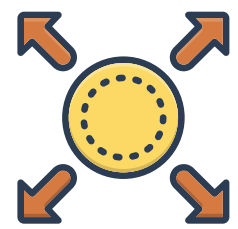

Reflect

- What did you learn?
- What impact will this have on future learning?
- What would you do differently next time?

Think

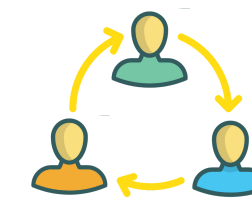

- What do your results mean?
- What is the best way to communicate your results?
- Who will you share this information with?

Extend

- Is there a better way to conduct your investigation?
- Has this investigation sparked further questions?
- How could we investigate/research more on this topic?

Let's Talk Science

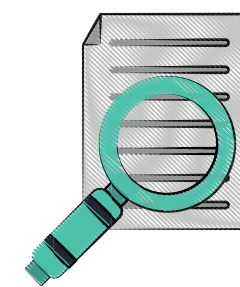

Share

- Can you explain your design/investigation?
- Did anyone do it differently?
- Ali had an interesting idea, would you like to share it with us?

Revoice

- Who can repeat how Alisha made her test fair?
- Can you explain how your partner measured this in your own words?
- Who can explain Seán's results?

Examine

- How did you make the test fair?
- Are your results repeatable?
- Are your results as accurate as they can be?
