Click Instruments (Click View-> Instruments if not visible) 2. Click required instrument 3. Click this symbol  to remove selected Instruments or this symbol  to hide selected instruments  | |

Creating Backing Tracks using MIDI or MusicXML Files, page 2

REARRANGE THE MUSIC TO SUIT YOUR STUDENTS CONTINUED...

- **Change Note Values** Click the note and press the number for the required note value
3 = semiquaver 4 = quaver 5 = crotchet 6 = minim
7 = semibreve . = dotted note + = tied note

- **Add Stacked Notes to Create a Chord** 1. Click the note
2. Shift + Letter name of note to be added

- **Delete an element** 1. Click on element (e.g., tempo, dynamic markings, ornament)
2. Press backspace

- **Move notes up or down octave** Up an Octave = Ctrl/Cmd + ↑
Down an Octave = Ctrl/Cmd + ↓

- **Change chord symbols** 1. Double-click a chord symbol
2. Type the new chord name

ENHANCE THE LEARNING WITH A VARIETY OF SYMBOLIC REPRESENTATIONS OF SOUNDS

- **Add Letter Names or Solfa** 1. Right click instrument name and click **Staff/Part Properties**
2. Click **Advanced Style Properties**
3. Change **Notehead scheme** to **Pitch Names** or **Solfège Movable Do**

- **Add Colours** Setup (only needs to be done once):
1. Click **Plugins**
2. Click **Manage Plugins**
3. Click **Color Notes** and click **Enable**

To apply the plugin:

- 1. Click **Plugins** -> **Notes** -> **Color Notes**

- **Change notation to tablature** 1. Open **Instruments** (Click **View-> Instruments** if not visible)
2. Click the arrow beside the instrument
3. Click this symbol  beside the current clef.
4. Change **Staff Type** from **Standard** to required tab style e.g. **Tab.4-str.simple**
5. Use Ctrl/Cmd + ↑ and Ctrl/Cmd + ↓ to move notes from one string to the other if needed (not to change octave)

- **Add Chord Diagrams** 1. Click on **Palettes**. If **Palettes** is not visible on the left click **View-> Palettes** (or press F9)
2. Click **Add Palettes** and click the plus beside Fretboard Diagrams
3. Click the Fretboard Diagram arrow (▶) in **Palettes**
4. Double-click the required fretboard diagram
5. Please note: only white note fretboard diagrams are available. Customise your own fretboard diagrams by clicking **View-> Properties** (or press F8)

Creating Backing Tracks using MIDI or MusicXML Files, page 3

SOLO THE INSTRUMENTS TO HEAR THE PARTS CLEARLY
