

SEMINAR OVERVIEW

The purpose of the day is to:

- Reflect on the key underlying principles and practices of effective collaboration and planning in subject leadership.
- Provide opportunities for individual schools to reflect on their priorities and to consider ways of working within their subject departments. It provides practical opportunities to engage with structures which can support a coherent school wide approach.
- To share practices and approaches in relation to subject leadership across schools

In advance of registering for the seminar please review the following:

- The seminar is intended to develop whole school collaborative approaches to subject planning and leadership.
- The seminar will be applicable to all subject leaders as the focus is on developing a whole-school approach rather than developing an approach within a single subject exclusively.
- All schools will be required to nominate two subject leaders and one member of the senior management team.
- Please ensure that all participating members are available to participate fully on the day

**The programme is supported by substitute cover for both subject leaders for the day.*
