During the course of the Droichead process, an NQT has a number of interactions with the experienced colleagues who are supporting the process. These are called professional conversations. These conversations provide opportunities to exchange informal feedback on a one-to-one basis, and discuss issues arising in the course of the NQT's professional learning and practice and offer guidance. Alternatively, a professional conversation may take the form of an arranged meeting between the NQT and one or more members of the PST.

GFGB: Cás-Staidéar APLA: Case Study

A few weeks into the school year, Fiona approaches you to ask for support with choosing her "One Other Professional Learning Activity" as part of Strand B of the Droichead process. She explains that she is unsure what would be suitable and mentions that she's interested integrating more collaborative learning activities into her lessons. However, she would like some guidance around identifying a relevant professional learning activity.

Taisce

Engaging in the process of portfolio-based learning enables the NQT to reflect on their professional learning in a way that suits them and identify and plan for areas in which they may need further support or guidance.
