Climate Action & Sustainable Development

Webinar 3

Learning Intentions

- Explore how biodiversity loss is occurring due to several main drivers.
- Identify what can be done to restore nature.
- Discuss methodologies and approaches that can support learners to meaningfully engage with nature education.

Dr. Aoibhinn Ní Shúilleabháin

- Associate Professor in the School of STEM Education, Innovation & Global Studies at DCU
- Chair of the Independent Advisory Committee on Nature Restoration
- Chair of Ireland's Citizens' Assembly on Biodiversity Loss, who returned their report and recommendations to government in 2023.
