Subject: PCF Day 2

Dear School Leader,

Thank you for your engagement and participation during Primary Curriculum Framework (PCF) Day 1.

Oide looks forward to meeting you and your teaching staff for the second professional learning day in respect of the PCF. Our PCF Day 2 will take place in term 3 of 2025/2026, as communicated in June 2025 via Oide Registration.

What is the duration of PCF Day 2?

Similar to PCF Day 1, this is a whole-school closure day, of 5 hours duration.

What will be addressed on PCF Day 2?

The Redeveloped Primary School Curriculum recognises childhood as a time of 'being' and 'becoming'. PCF Day 2 will provide time and space to consider the holistic development of pupils. Time will be devoted to reflecting on the competencies that children need, both now and into the future. Developing a shared understanding of the seven Key Competencies and how they foster children's deep learning and contribute to their holistic development will also be a focus.

PCF Day 2 will also explore the components of high-quality learning, teaching and assessment, and the integral role teacher agency can play when enacting the curriculum.

The overarching structure and focus of the five curricular specifications in the redeveloped primary school curriculum will also be explored as part of the day. Enactment supports available to schools will also be signposted.

What might a school leader do in advance of PCF Day 2?

To prepare for PCF Day 2 you are encouraged to communicate the following with teachers:

- The day will be most productive if all staff engage actively, with time for individual reflection in addition to pair, group, and whole-room dialogue.
- The Primary Curriculum Framework Document is available to view here.
- Professional Learning materials from PCF Day 1 are available here.
- The focus of PCF Day 2 will be on the 'being and becoming' of the redeveloped primary school curriculum through exploration of the seven key competencies and the components of high-quality learning, teaching and assessment. To support engagement on the day,

teachers are encouraged to read p. 8-27 of The Primary Curriculum Framework document in advance of PCF Day 2.

- An initial engagement to support familiarity with the layout and structure of the curriculum specification documents will also be provided during PCF Day 2. Teachers are encouraged to familiarise themselves with these documents in advance and to bring their curriculum specification books (Arts, SEE, STEM, Languages, Wellbeing) to PCF Day 2.
- An updated glossary of terms of the redeveloped curriculum is available here. Teachers are encouraged to read this in advance of PCF Day 2.

The Oide Professional Learning Leader (PLL) and the education centre assigned to your professional learning closure day will be in contact with you in advance of the event.

Please find here a frequently asked questions document for your information.

Oide will issue a further communication to schools in term 3 regarding planned supports for the 2026/2027 school year.

We look forward to working with you and your teaching staff in term 3.
