

Expression of Interest for Restorative Practice Sustained Support 2026/2027

Dear Principal,

Oide is pleased to invite your school to submit an Expression of Interest for Restorative Practice Sustained Support 2026/2027.

Restorative Practice provides schools with practical approaches to building positive relationships, strengthening school culture, supporting pupil wellbeing, and responding effectively to conflict and challenging behaviour. This sustained support training is designed to assist school leaders, teachers, and staff in embedding restorative approaches that foster respectful, inclusive, and supportive learning environments.

Participation in Restorative Practice Sustained Support will involve a commitment of four to five face-to-face 2-hour training sessions across the school year for up to eighteen members of staff, along with opportunities to reflect on and apply restorative practices within your school setting between sessions. This sustained approach is intended to support meaningful implementation and lasting impact. If your school is interested, please complete the Expression of Interest form using the link below:

Expression of Interest Form Link

The information gathered through this form will help us assess levels of interest and plan future support opportunities to meet the needs of schools.

If you wish to be considered for Restorative Practice Sustained Support, we would appreciate it if you could complete the form by Friday 9th October 2026.

Selected schools will be contacted by a member of the Oide Primary Wellbeing Team in the coming weeks.

Thank you for your interest in Restorative Practice and for your continued commitment to fostering positive, respectful, and inclusive school communities. Further details and resources can be found on our [website](#).

Kind regards,

Oide Primary Wellbeing Team
